The committee reviewed a draft of the timeline for bond restructuring and issuance of working cash bonds. There was a lengthy discussion about decreasing EAV's and the impact on the taxpayers. Committee members agreed that the process should be made very clear to the taxpayers. This will be a topic at our Strategic Planning in the fall.

Chris Bobek shared the data on the possibility of outsourcing specific employee categories. Concern was expressed regarding replacing union employees with contract employees. There could be a challenge/cost from the union.

We will meet during the summer to continue to discuss the bond restructuring and issuance of working cash bonds.
