

# CCSD 46 Lunch Menu Display Changes

Beginning November 1<sup>st</sup>, links to the CCSD 46 breakfast and lunch menus have changed. The main school webpage as well as the “Menu” button will now direct you to the Preferred Meals Online Interactive Menu System.

Each school now has their own menu, which displays breakfast and lunch for the current week. You can change what you see by checking or un-checking the boxes for breakfast and lunch.

There is a calendar located on the right side of the screen where you can select specific days to view. So if you'd like to plan in advance, you can see the upcoming week's menu items.

There is an option to print the monthly menu, if you'd rather have a printed copy. Simply choose breakfast or lunch from the drop-down menu, check to

include nutritional information if you'd like, and click on 'Print This Menu'. If you'd like to print next month's menu, simply choose a date on next month's calendar and follow the steps above.

You will notice that the new online interactive menu displays a wealth of nutritional information. You can move your cursor to hover over a menu item and see the nutritional content of any item on the menu, including calories, sodium, fat content and more.

You can also download the Preferred Word newsletter, and there are links to the Preferred Meals social media as well.
