CCSD 46
Summer Academy

June 9 - July 2
at Frederick School
NO SCHOOL on Fridays
Grades – Pre-K through current 8th grade.

Dates - Classes will begin on Tuesday, June 9th – Thursday, July 2nd with no school on Fridays.

Times - 1st period 8:15-9:25, 2nd period 9:30-10:40, 3rd period 10:45-11:55

Eligibility - The program is open to all District 46 students who could benefit from remedial courses or who wish to participate in enrichment courses.

Transportation - Transportation is the responsibility of the parent(s). Bus service is not available for the Summer Academy.

Attendance Policy - Consistent attendance is recommended throughout the summer academy program. Teachers will plan activities and prepare materials based on enrollment. Attendance will be taken just as during the regular school year.

Course Cancellation - District 46 reserves the right to cancel any course that does not meet minimum enrollment requirements.

Confirmation - Students and parents will receive course confirmation by the first week of June.

Registration - Early registration is encouraged. Classes will be filled in the order in which the registrations are received. Registrations can be mailed or delivered through your child’s school to Prairieview School, 103 E. Belvidere Rd., Hainesville, IL 60030 c/o Stephanie Possehl. No phone registrations will be accepted.

A student’s current grade level is used to register for Summer Academy.

Tuition - There is a tuition fee of $85.00 for each class. $80.00 per class if received by April 24th.

Refunds - There will be no refunds given after June 11, 2015.

Information - For additional information, please contact Stephanie Possehl (possehl.stephanie@46.org) or Steve Feldman (feldman.steven@d46.org).
Second Helping Classes

Second Helping Reading: Students will continue to develop and improve their basic reading, comprehension, and writing skills.

1. Grades 1-2  Time 8:15–9:25  Arnopolin
2. Grades 3-4  Time 8:15-9:25  Speck
3. Grades 5-6  Time 9:30-10:40  Corey
4. Grades 7-8  Time 8:15-9:25  Corey

Second Helping Math: Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

1. Grades 1-2  Time 10:45-11:55  Duguid
2. Grades 3-4  Time 9:30-10:40  Lanas
3. Grades 5-6  Time 10:45-11:55  DaMore
4. Grades 7-8  Time 10:45-11:55  Corey

8:15-9:25 Enrichment Classes

Pre-K: Kindergarten Readiness  Duguid
Kindergarten readiness class is designed for children who will be entering Kindergarten in the fall. We will be using many fun activities to strengthen and develop basic skills such as number sense, letter and sound recognition, and fine motor control. Come join the fun and prepare for the best days of your life.

K: Reading, Writing, Sight Words  Cunningham
Students will practice letters and sounds and then use their knowledge to express themselves through writing. Students will work to strengthen their writing and sight word recognition skills to prepare them for first grade. We will also read books together and explore some well-loved children’s literature.

K-1: Math Games  Wilson
Counting, place value, math facts and more! Students will play a variety of fun and challenging math games. Whether students need extra practice or enjoy math, this is a great way to maintain math skills over the summer!

1-3: Monsters, Myths & Mermaids  Knight
Does your student have a love for reading about mysterious creatures, such as singing mermaids or the Loch Ness Monster? In this class, students will be able to build and strengthen their reading and listening skills, while exploring these mysterious creatures through various tales. Then, students will be using their imagination and advancing their writing skills to create a first hand account of these monster “sightings” by writing short stories, live reports and illustrated newspaper articles.
2-5: Art Explorations
Griffin
Delve into the lives and work of prominent historical artists as you gain inspiration to create your own original artwork. We’ll explore fundamental elements of drawing, painting and design through the use of watercolor, paint, printmaking and paper mache. Basic art concepts such as color, shape, texture and line will also be explored.

3-4: Rhymes & Fun Times with Poetry
DaMore
P – play around with words and rhymes
O - overload of poems, there are so many kinds
E – express what you think, believe or feel
T – through poetry you’ll write a whole great deal
R – relax, listen to music and let your words flow
Y – you’ll never know where your mind will go!

3-4: Sign Language
Lorr
Learn to communicate through finger spelling and hand movements! You will learn the letters of the alphabet as well as how to finger spell many commonly used words. A background history of the deaf culture and American Sign Language will also be studied. We will even read excerpts from El Deafo by Cece Bell to gain an understanding of the deaf culture. By the end of our class, you will be able to communicate with your classmates and retell basic books/stories with the use of your hands!

3-5: FUNdamentals of Volleyball
Cellucci
Have FUN while learning the FUNdamentals of volleyball! Get ready for four weeks of fun and friendship – all while learning the skills of volleyball. All skill levels welcome! Sessions will work on fundamentals and introduce or improve basic skills. Materials needed: lightweight athletic shoes and kneepads. Elbow pads recommended but not required. Ms. Cellucci is an experienced middle school volleyball coach and a certified IHSA volleyball referee.

3-5: Science Experiments
Lanas
Would you like to learn more about Science using a hands-on approach? In this course, students will learn about plants, matter and chemical reactions. We will conduct several experiments to make learning both fun and educational!

5-6: Computer Club
Traiforos
Let’s have fun using the computer!! We will explore the Internet and find tons of sites for you to have fun with throughout the entire summer!

5-8: Sculpture World
Crane
Students create 3-dimensional artwork using a variety of different materials, such as clay, wire, and plaster.
5-8: Dance, Dance, Revolution  
Sajovic

Play the hit Wii game Dance, Dance, Revolution (DDR)! We will start by learning the basics of the game, compete against one another, and advance through the game. Bring a water bottle and get ready to sweat!

6-8: Unplugged  
Kulig

This class will take the students through a variety of skills needed to play board games. From Monopoly to Careers, from Life to Yatzee, and various language skilled games (Funglish, Boggle, and Pictionary) the students will be exposed to games that do not need a plug to operate!

6-8: Teambuilding  
Neuman

The more the merrier. Tasks are often easier and more fun to complete if you have a little help from your friends. This class is a chance for students to grow their communication, collaboration, and teamwork skills. Students will complete fun activities and learn how to effectively work with others to accomplish them. This is a great opportunity to participate with friends and even make new ones. Activities will include: tower building using various materials, an egg drop, “Minute to Win It” type challenges and many more!

6-8: Creative Writing  
Boardman

This year’s course will be a combination of quick creative writing creations and an extended short story or narrative. Each day will start with a quick write to get our thoughts flowing. Our primary focus, however, will be the creation of a short story. Students will receive individual feedback from the teacher and peers via Google Docs and will have a time conference with the teacher about their writing. At the end of the course, students will also have the opportunity to get set up for Camp NaNoWriMo during the month of July so they may extend their summer writing!

9:30-10:40 Enrichment Classes

Pre-K: Authors We Love  
Knight

We will take a journey learning about different authors of some of our favorite children’s books. We will work on improving our word recognition and reading skills while doing these activities, as well as games and crafts to help us learn more about these authors and their wonderful books! If you enjoy reading, writing, drawing and having fun – this class is for you!

Pre-K: Who is Ready for Kindergarten Math?  
Cunningham

Students will play games and have fun practicing the math skills taught in kindergarten to help prepare them for their upcoming year! Number recognition, counting, counting on, using ten frames, basic addition and subtraction skills and more will be used to solidify math skills!

K: First Grade Readiness  
Wilson

This class will include beginning reading, writing, and math skills that are necessary for first grade preparation.
K-1: Reading, Writing, Craftivity  
Duguid  
A reading and writing class that is designed around children’s books! Lessons will include activities related to the book for the day/week and will be aligned to the Common Core. In addition to the writing piece, students will be completing crafts to go along with their writing!

1-2 Seas Some Math  
Osterndorf  
Ahoy mates! Explore the high seas of trade, adventure and pirates. Calculate journeys and “battle” ships! Learn about sea-faring vessels and put flags up the mast as you master math facts and skills. Come sail to exotic ports and learn math with games. Opportunities to explore are afloat!

1-3: LEGOS go to the Movies  
Gildenberg  
Come build Lego movie sets and write movie scripts about your set! Learn the basics on screenplay and how to write a script – all while playing and building with Legos!

2-3: Mad Science  
Arnopolin  
Hey kids! Join me for a gaggle of fun, hands-on science activities. Become junior scientists as you experiment with items like Pop-Rocks, balloons, marshmallows, baking soda and much more! We’ll make “Elephant Toothpaste,” learn how to make raisins dance and create clouds in jars. Can’t wait for you to join this mess, but exciting, adventure! **Allergy Alert**

2-5: Travel Through Art  
Griffin  
Celebrate different cultures through art! Create aboriginal dot art while exploring the art of Australia, cherry blossom paintings while exploring the art of Japan, make Aztec suns while exploring the art of Mexico, explore the art of Central America by weaving and more! Have a fun summer creating connections between art and world cultures.

3-4: Computer Club  
Traiforos  
Let’s have fun using the computer!! We will explore the Internet and find tons of sites for you to have fun with throughout the entire summer!

3-4: Trash Turned to Treasures  
DaMore  
WAIT! Don’t throw away those empty toilet-paper rolls, egg cartons, extra buttons or take-out Styrofoam boxes…bring them in this summer and we’ll transform them into unique crafts together! You’ll be amazed to see how we can turn cereal and soda boxes into pencil cases and folders. The best part of all is you’ll be able to teach your friends and family how to make all of these projects, plus they’ll make great gifts! 😊

3-4: Pon Poms/Dance  
Lorr  
Do you love to dance? Then come move with us! You will learn proper stretches, fun dance routines and basic technique, such as leaps, turns, jumps and more! You will even practice your teamwork abilities while putting together mini-dance routines with your friends to share with the class!
3-5: Games, Games, Games
Speck
Are you full of energy and love to be outside? Start the summer off right by learning some new games, playing old games and inventing new games! Come play tag, four square, hopscotch, scooter races, kickball! We might even have time for egg and/or balloon tosses to test our skills!

4-6: Sensational Science
Neuman
Explore. Experiment. Investigate. During this class, students will journey through the world of science. We will take a look at various science concepts. Students will have the opportunity to gain a greater understanding of each concept through exploration, experimentation and investigation. All activities will be hands on and interactive. Join the science adventure!

4-8: Creative Faces & Perspectives
Crane
Students will discover different ways to create interesting artwork using people’s faces as their inspiration. They will also learn how to use one and two point perspective drawing methods to create houses, buildings and rooms.

6-8: FUNdamentals of Volleyball
Cellucci
Have FUN while learning the FUNdamentals of volleyball! Get ready for four weeks of fun and friendship – all while learning the skills of volleyball. All skill levels welcome! Sessions will work on fundamentals and introduce or improve basic skills. Materials needed: lightweight athletic shoes and kneepads. Elbow pads recommended but not required. Ms. Cellucci is an experienced middle school volleyball coach and a certified IHSA volleyball referee.

6-8: Forensic Science
Kulig
Students will learn to understand the concepts of forensic science by doing activities to solve a mystery as they student forensic science lessons. The activities we will complete provide students with hands-on opportunities to apply science process skills as we learn forensic science techniques. The students will learn the basics of crime scene investigation, how to analyze print and trace evidence, ways to identify each individual (fingerprints, blood, DNA, facial reconstruction, handwriting, voice identification, etc) and the steps that are taken in bringing evidence to court.

6-8: Misfits Book Club
Boardman
Join us in reading James Howe’s The Misfits, a funny book with a serious message. As we read about four students who don’t fit in with the groups in their middle school, we will discuss stereotyping, naming or labeling, school cliques, true friendship, tolerance and what it means to figure out who you are as a person. This is an accessible text for most students (960 Lexile level), but please be prepared to read an average of 2 chapters per night outside of class. Ages 10-14.
10:45-11:55 Enrichment Classes

**K-1: Mad Science**
Arnopolin
Hey kids! Join me for a gaggle of fun, hands-on science activities. Become junior scientists as you experiment with items like Pop-Rocks, balloons, marshmallows, baking soda and much more! We'll make “Elephant Toothpaste,” learn how to make raisins dance and create clouds in jars. Can’t wait for you to join this messy, but exciting, adventure! **Allergy Alert**

**K-2: Computer Club**
Traiforos
Let’s have fun using the computer!! We will explore the Internet and find tons of sites for you to have fun with throughout the entire summer!

**K-2: Seussiology**
Wilson
Come join the fun of reading and learning with books of one of our most celebrated authors and illustrators, Dr. Seuss. As our imaginations are sparked with the whimsy of his stories and characters, we will enjoy activities, games, and crafts. With Dr. Seuss, the fun never ends!

**K-3: Cooks for Books**
Knight
Students will deepen their love for reading while creating treats that will go along with books we read each day. We will work on our reading skills while relating recipes with the plot and characters from these selected children’s books. This class will offer children a chance to be creative while making their own tasty masterpieces! **Allergy Alert**

**1-5: Wonderful Watercolors**
Griffin
Explore the exciting possibilities while experimenting with liquid watercolor. From creating oil pastel resists and marbling paper using shaving cream, to using salt, glue and tape, students will learn various watercolor techniques and will create unique pieces of watercolor art.

**3-4: String Bracelets**
Sajovic
Learn basic knot techniques to create a variety of different friendship bracelet patterns. We will learn more advanced stitches with each class. By the end of the summer, you will have a colorful arm full of bracelets!

**3-4: Seas Some Math**
Osterndorf
Ahoy mates! Explore the high seas of trade, adventure and pirates. Measure angles of trade routes, calculate journeys and “battle” ships. Learn about sea-faring vessels and put flags up the mast as you master math facts and skills. Come sail to exotic ports and learn math with games. Trade ten “pieces of eight,” subtract the cargo and more! Opportunities to explore are afloat.

**3-4: Newspaper Club**
Murtaza
…where students come together to write about topics that are happening in school, worldwide, poetry, comics and stories. In Newspaper Club, we will be writing, editing, publishing, taking photos and videos. So come and join the Newspaper Club of District 46 where students will be reporting and researching different events.
3-5: **LEGOS Go To the Movies!**  
Gildenberg

Come build Lego movie sets and write movie scripts about your set! Learn the basics on screenplay and how to write a script – all while playing and building with Legos!

3-5: **Teambuilding**  
Neuman

The more the merrier. Tasks are often easier and more fun to complete if you have a little help from your friends. This class is a chance for students to grow their communication, collaboration, and teamwork skills. Students will complete fun activities and learn how to effectively work with others to accomplish them. This is a great opportunity to participate with friends and even make new ones. Activities will include: tower building using various materials, an egg drop, “Minute to Win It” type challenges and many more!

3-5: **Arts, Crafts and Snacks!**  
Speck

Are you creative, imaginative? Even if you’re not – no worries! Would you like to create beautiful things out of everyday objects? Is there a snack you would love to try your hand at? Start your summer off by having fun doing paper mache, decoupage or tie dying. Come give it a try! **Allergy Alert**

3-8: **Everything Clay**  
Crane

Students will create ceramic art pieces that can be used in a variety of different ways! Examples: piggy banks, phone holder, jewelry box, appetizer dishes, etc.

6-8: **Indoor & Outdoor Sports**  
Lanas

Students will play a variety of sports that include basketball, flag football and wiffleball! We will start with the fundamentals and follow it up with competitive games shortly after.

6-8: **Living the Constitution**  
Kulig

The Constitution contains the rights every citizen should know, but many students learn the information only to forget it. Through this fun, interactive class, students will learn about different types of government, deals that made the country and proof a legal brief. How about a Constitution Scavenger Hunt? And let’s end this fun class with a debate. A fun way to reinforce learning objectives…but also to most importantly become a better citizen.

11:55-3:00

**K-4 Activity Camp**

Participating students will take part in a variety of fun athletic activities that will build not only your child’s athletic skills, but also his/her sportsmanship skills as well. Children in Activity Camp that are enrolled in morning classes should bring a sack lunch. **THIS CLASS HAS A COST OF $190.00 before April 24 or $200.00 after.**

**5-8 Activity Camp**

Participating students will take part in a variety of fun athletic activities that will build not only your child’s athletic skills, but also his/her sportsmanship skills as well. Children in Activity Camp that are enrolled in morning classes should bring a sack lunch. **THIS CLASS HAS A COST OF $190.00 before April 24 or $200.00 after.**
Student Registration Summer Academy 2015

Enrollment is based on the date registration is received. All classes have a minimum number of students required and may be canceled if minimum enrollment is not met. **Making a Second Choice is Important.** Students may sign up for 1, 2 or 3 concurrent courses.
