CCSD 46
Summer Academy
Monday - Thursday
June 11 - July 3
at Frederick School
Summer Academy 2012
Grayslake School District 46

Grades- Kindergarten through current 8th grade.

Dates- Classes will be held June 11 – July 3rd with no school on Fridays or July 4th or 5th.

Times- 1st period 8:15-9:25, 2nd period 9:30-10:40, 3rd period 10:45-11:55

Eligibility- The program is open to all District 46 students who could benefit from remedial courses or who wish to participate in enrichment courses.

Transportation- Transportation is the responsibility of the parent(s). Bus service is not available for the Summer Academy.

Attendance Policy- Consistent attendance is recommended throughout the summer academy program. Teachers will plan activities and prepare materials based on enrollment. Attendance will be taken just as during the regular school year.

Course Cancellation- District 46 reserves the right to cancel any course that does not meet minimum enrollment requirements.

Confirmation- Students and Parents will receive course confirmation by the first week of June.

Registration- Early registration is encouraged. Classes will be filled in the order in which the registrations are received. Registrations can be mailed or delivered through your child’s campus to Prairieview School, 103 E. Belvidere Rd., Hainesville, IL 60030 c/o Julie Mayer or Michelle Dzik. No phone registrations will be accepted.

***A student’s current grade level is used to register for Summer Academy.

Tuition- There is a tuition fee of $85.00 for each class. $80.00 if received by April 27th.

Refunds- There will be no refunds given after June 13, 2012.

Information- For additional information, please contact Michelle Dzik (dzik.michelle@d46.org) or Julie Mayer (mayer.julie@d46.org).
## Second Helping Classes

**Second Helping Reading:** Students will continue to develop and improve their basic reading, comprehension, and writing skills. Wilson and Read Naturally programs may be included in these classes.

1. Grades 1-2  Time 9:30-10:30  Lagudem
2. Grades 3-4  Time 9:30-10:30  Speck
3. Grades 5-6  Time 9:30-10:30  Hofherr
4. Grades 7-8  Time 9:30-10:30  Mauro

**Second Helping Math:** Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

1. Grades 1-2  Time 10:45-11:55  Lagudem
2. Grades 3-4  Time 10:45-11:55  Speck
3. Grades 5-6  Time 10:45-11:55  Hofherr
4. Grades 7-8  Time 10:45-11:55  August

### 8:15-9:25 Enrichment Classes

**Pre-K Kindergarten Readiness**  Brobst
Kindergarten readiness class is designed for children who will be entering Kindergarten in the fall. We will be using many fun activities to strengthen and develop basic skills such as number sense, letter and sound recognition, and fine motor control. Come join the fun and prepare for the best days of your life.

**K-1 Dr. Seuss Book Club**  Kalata
Students will explore the silliness, made up words and rhymes with the Cat. We will have a “Seusstastical” time exploring books, doing reader’s theater and making crafts all based on the work of Dr. Seuss. Don’t delay, sign up today!

**1-2 Incredible Author Studies**  Bruick
Meet some inspiring picture book authors: Mo Willems, Melanie Watt, Eric Litwin, Amy Krouse Rosenthal, and more talented authors will be the focus of our author studies. We will use their stories to inspire our own stories, create crafts, edible treats, listen to read alouds, participate in Readers’ Theater, and much more!

**1-3 Let’s Explore the World of Science**  Peterson
Let’s go on an adventure around the world and investigate the world of science. We will take an underwater adventure as we learn about the mysterious world under the sea. We will explore the animal world and find out which animal is the smallest of all…and so much more.
1-3 Health on the Move!  Morton  
Love to play games and keep your body energized? Come get active with health on the move!  
Learn fun new games that also teach you how to keep your body fit. Energize your body by  
being active, learning how to eat right and more healthy facts. No more sitting behind a desk to  
learn new information, have fun learning by moving!

1-2 Computer Club  Lagudem  
Let’s have fun using the computer. We will explore the Internet and find tons of sites for you to  
have fun with.

1-8 Making Memories  Achtor  
Are you imaginative and want to learn how to organize and decorate your pictures? Come learn  
about scrapbooking tools and techniques by designing your own 8x8 keepsake scrapbook!  
Develop your creativity and become skilled in different matting and framing techniques, unique  
ways to layer pages, and embellishment styles using stickers, recycled materials, rub-ons, and  
ribbons. All you need to bring is an 8x8 scrapbook and 15-25 photos from home in a zip lock bag  
labeled with your name. NOTE TO PARENT: photos may be cropped or cut from original shape  
and permanently attached to your child’s scrapbook.

2-4 Little Passports  Dirks  
This is your ticket to a global trek! We will take a glimpse into different places around the  
world. Each week we will learn about a country’s culture in a fun, memorable way!

3-4 Math Games  Walker  
This class will focus on the review of grade level math concepts such as multiplication, division,  
decimals, subtraction, place value, story problems, and fractions using games. The smartboard,  
iPads, computers, dice, cards, etc. will be used to practice skills.

3-4 Art  Speck  
Come out and join us for some fun times in art class. We will paint, draw, design, and do much,  
much more. Students will need to bring a plain t-shirt upon which to create a work of art.

3-5 Fun Fitness Games  Mertel  
Students will engage in fun fitness activities and games to enhance their endurance, strength, and  
coordination. They will learn about different muscles, bones, and fitness terms throughout the  
course that align with the activities they are doing. Students will learn how to properly warm  
their muscles up for exercise, learn why exercise is important, and how to cool down their bodies  
after exercise. At this age, playing is fun, and this course will get kids active through games to  
make exercising fun and enjoyable for all!!

3-4 Hoops, Hoops, and More Hoops!  Mauro  
Course will offer a variety of games and drills for basketball players of all ability levels. Skills  
that will be focused on include, shooting, dribbling, passing, and defense. Come out to compete  
against with and against friends while improving your skills!
3-5 Game Lovers  
Leon  
Do you love to play games? Come join us to play all sorts of family games (no electronics!). We can play Pictionary, Catch Phrase, Taboo, Apples to Apples, Sequence, Yahtzee, Left Right Center, Monopoly, Life, Sorry, Scattegories, Outburst. You name the game, I probably have it or you can bring it to share.

5-6 Hoops, Hoops, and More Hoops!  
Mauro  
Course will offer a variety of games and drills for basketball players of all ability levels. Skills that will be focused on include, shooting, dribbling, passing, and defense. Come out to compete against with and against friends while improving your skills!

3-5 Health 101  
Wolf  
Health 101 is an introductory course for elementary students, which focuses on important practices of living a healthy lifestyle. Health 101 will focus on the basics of proper nutrition and physical fitness, with a special emphasis on living a lifetime full of joy and self-respect. Health 101 will combine uplifting workouts with lessons that encourage healthy lifestyle practices and positive emotional and social development. Students will explore different ways to stay active, including yoga, running, and other types of exercise. Goals of the program are to encourage confidence and positive self-esteem. The program will include lessons about values, proper nutrition, cooperation, goals, being emotional, and physical health.

3-6 Runners’ World  
Waldstein  
Want to run faster or farther? Learn stretches and warm-up/cool-down activities as well as practice sprinting and longer distance running techniques and skills in this exciting activity class. Running/PE shoes and a water bottle are required. Please dress in athletic clothing appropriate for the weather.

3-8 Perspective Drawing  
Crane  
Students learn how to use one and two point perspective drawing methods to create houses, buildings and rooms.

4-8 Creative Faces  
Crane  
Students will discover different ways to create interesting artwork using peoples faces as their inspiration.

4-8 Paper Arts and Crafts  
Webster  
Learn different crafts that can be made with basic paper. Origami and paper quilling will be covered. Then different craft and decorating projects will be completed. (Basic items may be requested from home).

4 Mission Possible” S.R.A.C. (Summer Reading Assignment Complete!)  
Janda  
Your mission, if you choose to accept it, will be to work in a small group to read and discuss, Shredderman. There will be assigned reading for each class period, but some will be done together as well. Students will be guided through annotation, inferences, connections, etc. Enjoy a book club atmosphere with a comfortable environment, occasional snacks and discussion. (For Incoming 5th Graders)
5-6  Six Trait Writing  Garner
This class will focus on developing writers’ abilities in each of the six traits of good writing, including ideas, voice, sentence fluency, word choice, conventions, and organization.

5-6  Book Club  Kazmer
Students will read and discuss great books and enjoy book related snacks. We will explore reading fluency and grow our love of reading. This is a great way to avoid the summer slide and prepare for next year while having fun.

5-6  Newspaper Club  Hofherr
Have you ever thought about being a reporter? Do you want to learn how to write a newspaper article? Do you like to design pages with clipart and borders? Then this is the club for you! Come join us as we create a school newspaper. Some of our jobs will include: deciding on a name for our newspaper, designing a logo, learning the basics of writing a good, exciting article, brainstorming some article ideas, researching & writing our articles then typing them on the computer, and creating an eye catching layout & design for the entire newspaper.

6-8  Civil War  Furlan
Students will see the Civil War through the eyes of the South. They will look at primary sources of Southern documents and trace the history of the formation of the Confederate States of America. Students will explore the Confederate States’ history up to its demise at the end of the Civil War.

6-8  Softball  White
Students will learn about the rules of softball and also spend time developing the skills and teamwork required to play the sport.

6-8  The Hunger Games Book Club  August
Dive into the world of science fiction novels with The Hunger Games Trilogy! Meet Katniss, she lives in the nation of Panem and is forced by the Capitol to participate in The Hunger Games, a fight to the death on live TV! What will happen to Katniss, her family and friends and her district? Come to “The Hunger Games” book club to find out!

7-8  Pre-Algebra  Voss
This course is designed for students who are interested in advancing in their math level to be eligible for Algebra for the upcoming school year. By the end of this course, students will be able to complete complex two step equations, graph equations on a coordinate plane, understand all geometric formulas, and be able to apply problem solving skills to real life situations. Students taking this course must have teacher recommendation to take this class, be able to attend ALL school days, and be able to provide their own calculator. During this course, we will be working through the entire pre-algebra book in preparation for the Algebra course. This is not a course for remediation. This class is two class periods long and will run from 8:15 a.m.-10:40 a.m. each day. The cost is $170.00

<td>2-4</td>
<td>Go Green!</td>
<td>Wolf</td>
<td>Go Green is a course that will help teach students how to adopt environmentally sustainable practices into day-to-day life. Students will learn what it means to go green by exploring environmental issues that face communities all over the world. Go Green will place a special emphasis on the three R's: reduce, reuse, and recycle. The course will include lessons to establish an understanding of habitats and species in our backyard and around the world. We will research ways of taking care of our environment and use our creativity to complete hands-on projects and fun activities. Some topics Go Green will discuss are recycling, backyard habitats, gardens, conservation, global warming, energy, and solutions. The end of the class project will be to create a flyer in class that will discuss the 3 Rs and how we can help keep Mother Nature around.</td>
</tr>
</tbody>
</table>
2-5 Puzzles Galore
Dunham
Do you like riddles, brainteasers, and all different types of puzzles? Well if you do, this class is for you! Puzzles Galore will be full of differentiated puzzles that are “just right” for you and your puzzle skill level. We will be learning and practicing such types of puzzles as: Sudoku, word searches, crosswords, hunt and finds, logic puzzles, jigsaw puzzles, etc. Come join the class that will teach you the skills you will need to be a life-long puzzle lover!

3-4 Book Club
Kazmer
Students will read and discuss great books and enjoy book related snacks. The best way to improve reading is to read more. This is a great way to avoid the summer slide and prepare for the next year while having fun.

3-4 Second Helping Reading
Speck
Students will continue to develop and improve their basic reading, comprehension and writing skills.

3-4 Computer Club
Bruick
Let’s have fun using the computer. We will explore the Internet and find tons of sites for you to have fun with. We will also explore various programs, including: Garage Band, Imovie and Comic Life.

3-5 Puppet Masters
Leon
Join us to write and perform your own puppet show or shows. We can use puppets you have at home or ones that I have to create our own show. We will spend some time working on writing a terrific script, creating some scenery and props, and then practicing our show to perfection. We can then put on a show for our parents and invited guests when we have them perfected.

3-5 Volleyball
August
Bump, set, and spike your way into the summer. Come join us for a lot of fun and excitement.

3-5 Hoop Dreams- Beginners Basketball
Mertel
Students will learn the fundamentals of basketball skills while participating in drills, activities, and games. Students will have the opportunity to enhance their individual skills (dribbling and shooting) and team skills (passing, teamwork, communication, etc) through various lead-up games and drills. Whether this is your first time dribbling a ball, or you play on an in-house team, this course will help you improve your basketball skills and knowledge!

3-6 World Traveler
Waldstein
Grab your passport and join us in discovering the world through literature, games, music, snacks and crafts. We will travel to Africa, Asia, South America and Europe in a whirlwind of fun and interesting activities. No suitcases required!
4-6 Math Mania
Sibigtroth
Come join the fun! In MATH MANIA we will play tons of math games involving cards, dice, and other manipulatives. We will play games in small groups and in partners! You will even get the opportunity to design, create, and play your very own math game! What better way to keep up your math skills, while having fun playing games! Come join the fun! You won’t believe what you will learn!

4-8 Stitches of All Kinds
Webster
Explore the world of stitchery. Make a coaster of plastic canvas, start a cross-stitch wall hanging. Learn the variety of embroidery stitches, and if time allows, an introduction to crochet!

4-8 Dance Fitness
Morton
Come get your groove on and keep up your heart beat! Learn dances such as the Cupid Shuffle, Thriller, Electric Slide and more! Get the chance to make your own dance and teach to the group. Dancing is a great way to have fun and stay healthy. Come out and show us your best moves!

5-6 Working with Words
Garner
Are you an avid reader? Have you ever wondered what a word means or where it comes from? Come and join us as we learn about the origins of words, work with figurative language, and learn new vocabulary, all of which will help you to become a stronger reader and writer. This challenge course is designed for students that wish to take their word knowledge and usage to the next level.

5-6 Second Helping Reading
Hofherr
Students will continue to develop and improve their basic reading, comprehension and writing skills.

5-8 Sculpture World
Crane
Students create 3-dimensionsal artwork using a variety of different materials, such as clay, wire, and plaster.

5-8 Hoop Dreams- Intermediate Basketball
Mertel
Students will continue to develop their fundamental basketball skills and knowledge of the game while participating in drills, activities and games. Students will be challenged to improve the individual and team skills needed to participate in a game of basketball. Students will have a chance to complete dribbling, passing, and shooting drills, as well as lead up games (knock-out, dribble war, and 5 point passing). For the final week of camp, students will compete in a series of 3 vs. 3 and full court tournaments to show off their newly improved basketball skills!

5 Mission Possible” S.R.A.C. (Summer Reading Assignment Complete!) Janda
Your mission, if you choose to accept it, will be to work in a small group to read and discuss Chasing the Falconers. There will be assigned reading for each class period, but some will be done together as well. Students will be guided through annotation, inferences, connections, etc. Enjoy a book club atmosphere with a comfortable environment, occasional snacks and discussion. (For incoming 6th Graders).
6-8 Volleyball
Bump, set, and spike your way into the summer. Come join us for a lot of fun and excitement.

6-8 Sports of All Sorts
Have fun playing TONS of different sports and games!

7-8 Second Helping Reading
Students will continue to develop and improve their basic reading, comprehension and writing skills.

7-8 Seven Keys to Success
Students will get the “Keys to Success” in the classroom by improving the following study skills: note taking, organization, time management, test-taking, goal setting, group work skills, and stress management. Through a variety of learning exercises and writings, students will become even better students!

7-8 Pre-Algebra
This course is designed for students who are interested in advancing in their math level to be eligible for Algebra for the upcoming school year. By the end of this course, students will be able to complete complex two step equations, graph equations on a coordinate plane, understand all geometric formulas, and be able to apply problem solving skills to real life situations. Students taking this course must have teacher recommendation to take this class, be able to attend ALL school days, and be able to provide their own calculator. During this course, we will be working through the entire pre-algebra book in preparation for the Algebra course. This is not a course for remediation. This class is two class periods long and will run from 8:15 a.m.-10:40 a.m. each day. The cost is $170.00.

10:45-11:55 Enrichment Classes

K-1 Summer Adventure
Go Buggy for Insects! Surf”s up! Sports of all Sorts! Each week we immerse ourselves in a new theme through music, games, art and literature. We will review sight words, practice writing and improve our math skills too.

K-2 Working with Words
We will use hands-on activities to improve spelling, reading, phonemic awareness and phonics skills. Students will be able to manipulate their own letters to make words. We will learn common patterns in words and read and write using these common sounds.

1-2 Second Helping Math
Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.
1-2  **Book Club**  
Students will read and discuss great books and enjoy book related snacks. The best way to improve reading is to read more. This is a great way to avoid the summer slide and prepare for the next year while having fun.

1-3  **Reader’s Theatre: Fables, Folk Takes and Picture Books**  
The classroom is our stage when we read and perform some of our favorite stories. As we learn about and read each story, we will also be doing projects about the characters and storyline.

2-4  **Sew, Knit, Craft!**  
Come learn the basics of becoming a life-long crafter! We will use plastic canvas and yarn to create magnets, pencil toppers, and more. We’ll explore the basics of finger and needle knitting and create other crafts such as photo books, cards, “green” creations, and more! There will be an additional fee of $5 to cover the cost of supplies for this class.

2-4  **Let’s Make a Restaurant!**  
Have you ever gone to eat at a restaurant? Well, now it is time to run one! Students will use their creativity while tuning their math and writing skills. They will create advertisements, menus, and recipes for their restaurant. They will even be able to try out some of their own recipes/menu items. Yum!

3-4  **Second Helping Math**  
Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

3-4  **Cooking**  
Do you love helping your parents in the kitchen? You will learn how to prepare simple snacks and meals that you can make on your own. We will write our own cookbook with all the recipes from class. * There is no extra materials fee for this class. Supply lists will be sent home each week with a list of ingredients to be purchased. Please bring a 3 ring binder for the cookbook.

3-5  **Games, Sports, and Fun**  
Offers a variety of sports and activities for both indoor and outdoor play. Sports that will be reviewed and played include, and are not limited to: basketball, floor hockey, baseball, football, soccer, and volleyball. Learn a new sport and practice your favorite sport while having fun with your friends!

3-6  **World Traveler**  
Grab your passport and join us in discovering the world through literature, games, music, snacks and crafts. We will travel to Africa, Asia, South America and Europe in a whirlwind of fun and interesting activities. No suitcases required!

3-6  **Art Journaling**  
Art journaling is a great outlet for kids that love the freedom of a blank canvas, to explore color + words+ images, to decorate their thoughts and even sometimes get messy. It makes self-expression fun! Art journaling is about YOU, your life and your feelings.
3-8 Everything Clay
Crane
Students will create ceramic art pieces that can be used in a variety of different ways!
Examples: Piggy Banks, Phone holder-jewelry box, appetizer dishes, etc…

4-6 Math Kinects
Sibigtroth
Come get “Kinected” to math! In Math Kinects we will play tons of math games on the computer. Students will learn about the latest and greatest online math games, so that they can even play them at home! We will play games that will incorporate all different math topics including: number sense, fractions, measurement and geometry! What better way to practice your math skills, while having fun playing games this summer! Come get “Kinected”! You won’t believe how much fun we will have!

4-6 Create-A-Game
Morton
Is P.E. your favorite class? Create your own game with the help of P.E. teacher Mrs. Morton and learn how to teach! We provide equipment and advice. The more people that join, the more games we will create! Come join us to teach and play a new game that’s created by you!

4-8 Color Between the Lines
Webster
Love to color? Never have time? Explore different coloring media and shading to create fun colored pictures. We will try watercolor painting, colored pencils, and crayon.

5-6 Second Helping Math
Hofherr
Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

5-6 Spanish
Garner
Come and learn colors, numbers, days of the week, months of the year and a lot more in Spanish. We will play games, sing songs, learn about the Hispanic culture and learn many different words in the Spanish language. Grades 5-6 will focus on conversational Spanish and the Hispanic culture of various Spanish-speaking countries.

5-6 Summer Book Club
White/Leon
Want to meet with some classmates and complete your summer reading book for Frederick School? We will meet each day to read and discuss the books that are required reading for 5th and 6th graders at Frederick School. Once we have completed those books, we will choose another fun book as a group.

5-8 Introduction to Computer Science
Van Laeke
The class will be a true introduction to computers. We will cover the concepts of mainframes thru mid-tier, Unix based machines, the introduction of the PC and how it changed things and the evolution to tablets and hand-helds that are utilized now by everyone. Some activities include trying to write a Cobol program, learning basic info about how computers work from binary algebra to an intro about bits and bytes. We will learn about web page development and designing a home web page, in addition to learning about circuits and end the class with a storyboard project suggesting plans for developing a game or something that could be used with a computer.
5-8 Running Warrior Dash
Mertel
Students will engage in a variety of running and fitness activities to improve cardiovascular endurance. Proper techniques will be taught and practiced for warm-ups, running, and cool downs. Students will learn how to set fitness goals, track progress, and assess their fitness levels. Students will be encouraged to perform at his/her own abilities and work towards their goals throughout the course by engaging in relays, walking/running drills, and games. Throughout the course, the students will help design a course that involves walking, running, and obstacles to complete. They will race against themselves and each other to show off their hard work!!

7-8 Second Helping Math
August
Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

11:55-3:00

K-4 Activity Camp
Crane, Geske and Mauro
Participating students will take part in a variety of fun athletic activities that will build not only your child’s athletic skills, but also his/her sportsmanship skills as well. Children in activity camp that are enrolled in morning classes should bring a sack lunch. THIS CLASS HAS A COST OF $190.00 by April 27 or $200.00 after.

5-8 Activity Camp
Crane, Geske and Mauro
Participating students will take part in a variety of fun athletic activities that will build not only your child’s athletic skills, but also his/her sportsmanship skills as well. Children in activity camp that are enrolled in morning classes should bring a sack lunch. THIS CLASS HAS A COST OF $190.00 by April 27 or $200.00 after.
Student Registration Summer Academy 2012

Enrollment based on the date registration is received. All classes have a minimum number of students required and may be canceled if minimum enrollment is not met. Making a Second Choice is important. Students may sign up for 1, 2 or 3 concurrent courses.
