CCSD 46
Summer Academy

Monday – Thursday
June 10 – July 3
at Frederick School

**no school on Fridays!**
Grades – Pre-K through current 8th grade.

Dates - Classes will be held Monday, June 10th – Wednesday, July 3rd with no school on Fridays.

Times - 1st period 8:15-9:25, 2nd period 9:30-10:40, 3rd period 10:45-11:55

Supervision – Students may not enter Frederick until 8:10 am, as there is no supervision offered in the morning. If a student takes a 1st period class and a 3rd period class, there is no supervision for 2nd period. Students need to be picked up on time after their class is dismissed.

Eligibility - The program is open to all District 46 students who could benefit from remedial courses or who wish to participate in enrichment courses.

Transportation - Transportation is the responsibility of the parent(s). Bus service is not available for the Summer Academy.

Attendance Policy - Consistent attendance is recommended throughout the summer academy program. Teachers will plan activities and prepare materials based on enrollment. Attendance will be taken just as during the regular school year.

Course Cancellation - District 46 reserves the right to cancel any course that does not meet minimum enrollment requirements.

Confirmation - Students and parents will receive course confirmation the first week of June.

Registration - Early registration is encouraged. Classes will be filled in the order in which the registrations are received. Registrations can be mailed or delivered through your child’s campus to Prairiewood School, 103 E. Belvidere Rd., Hainesville, IL 60030 c/o Stephanie Timm. No phone registrations will be accepted.

A student’s current grade level is used to register for Summer Academy. Please notice the grade levels listed next to each course and sign up for the appropriate class for your child.

Tuition - There is a tuition fee of $95.00 for each class.

Refunds- There will be no refunds given after June 13, 2019.

Information- For additional information, please contact Stephanie Timm (timm.stephanie@d46.org) or Amanda Kurzeja (kurzeja.amanda@d46.org).
Second Helping Classes

Second Helping Reading and Math: Students will receive extra support in the areas of reading and math. These classes are beneficial to students that need to maintain skills taught during the regular school year.

Enrichment Classes

Enrichment Classes: Students can choose from a variety of subject areas to enhance their love of learning. Subjects include art, technology, physical activity, games and more!

1st Period - 8:15-9:25

Grade Pre-K: Kindergarten Readiness               Wilson
Kindergarten readiness class is designed for children who will be entering Kindergarten in the fall. We will be using many fun activities to strengthen and develop basic skills such as number sense, letter and sound recognition, and fine motor control. Come join the fun and prepare for the best days of your life.

Grades K-2: Coding with Lots of Bots              Innes
This class will begin with students coding and programming using various online resources. Using the knowledge gained through these online resources and apps, students will use their coding skills to program Code and Go Mice, BeeBots, Lego Robots, Dash and Dot, Spheros and OzoBot Robots and more! Programmers will start with the programming basics learned during week one to start programming different bots. Each week we will focus on a different aspect of coding and programming.
**This class is possible because of equipment purchased with a Foundation 46 Impact Grant.**

Grades K-2: P.E. for Me                           Cashman
Come join us to play some of your favorite P.E. games and activities! This class will provide the students with the benefits of being physically active! In addition, students will have the opportunities to work on teamwork, good sportsmanship and socialization in a safe, fun and comfortable environment.

Grades 1-2: Second Helping Reading               Tabassum
Students will continue to develop and improve their basic reading, comprehension, and writing skills.

Grades 1-3: Minecraft                            Reisman
Come join us for some Minecraft fun! We will have different opportunities for you to build and craft. We will be working together on building parts of our school – using ideas that YOU have! In addition to building, there will be some competitive challenges that you will never see coming!
Grades 3-4: STEM and The Great Lego Challenge
Welcome to the world of legos! Design and build some of the great monuments of the world! Build a catapult out of legos and test it out! Create a series of arcade games using legos and other materials and win real prizes! The possibilities this summer are endless!

Grades 3-4: Second Helping Reading
Students will continue to develop and improve their basic reading, comprehension, and writing skills.

Grades 3-5: Wizarding World of Harry Potter 1
Do you love all things Harry Potter? Then this class is for you! Besides reading from some of your favorite books and learning about the Wizard world, we will sort ourselves into houses, create our own wands, try potions, study herbology and find out what our patronus looks like! Test your Harry Potter knowledge in a game of trivia! Our themes will come from the first two books, Sorcerers Stone and Chamber of Secrets.

Grades 3-6: Circus Skills
Join the circus this summer! Learn to walk tall on stilts, roll along on a unicycle, juggle a three ball cascade, invert on a gym wheel and so much more! We will train circus skills in a safe progression, with instruction, spotting and at your speed. Circus literature, circus arts history and fine art pieces about circus will be woven into our learning together. This class will increase body awareness, attention, teamwork, improv/flexible thinking and performance skills. Join the fun!

Grades 5-8: Sculpture World
Students will discover a variety of cool ways to create three-dimensional sculptures. Many different types of art materials – such as wood, plaster, wire, cardboard, tile, plastic and led lights may be used to achieve different 3D artwork!

2nd Period - 9:30-10:40

Grade Pre-K: Story Time Fun!
Come along this summer for a story time adventure! Each day as we read a story, the students will do activities based around the books. We will practice rhyming, letter recognition, counting and so much more!

Grade K: First Grade Readiness
This class is designed for incoming first graders. The students will practice beginning reading strategies, writing, and math skills that are necessary for first grade. Come make new friends and get ready for 1st grade!
Grades K-2: Space Explorers  
Cashman
Join us as we leave Earth and see what is out there in our solar system and beyond! Students will learn what it takes for humans to be space explorers and what is out there on other planets and in other galaxies.

Grades 1-2: Circus Skills & Stories  
Richard
Join the circus this summer! Learn to walk tall on stilts, juggle a three scarf cascade, defy gravity on a slack line and more. We will train circus skills in a safe progression, with instruction, spotting and at your speed. Circus literature will be a main focus along with mime technique, teamwork, creative movement and performance through character exploration. Join the fun!

Grades 3-4: Second Helping Math  
Tabassum
Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

Grades 3-5: Coding with Lots of Bots  
Innes
This class will begin with students coding and programming using various online resources. Using the knowledge gained through these online resources and apps, students will use their coding skills to program Code and Go Mice, BeeBots, Lego Robots, Dash and Dot, Spheros and OzoBot Robots and more! Programmers will start with the programming basics learned during week one to start programming different bots. Each week we will focus on a different aspect of coding and programming.

**This class is possible because of equipment purchased with a Foundation46 Impact Grant.**

Grades 3-8: Creative Faces and Places  
Crane
Students will explore creative ways to draw different faces and places while using a variety of different methods and drawing materials.

Grades 4-8: Digital Storytelling – Short Film  
Reisman
Do you like watching YouTube videos? Have you ever thought to yourself “I can do that”? Well, now is your chance to prove it. In this club, you will learn how to write, film, and edit your own short film to be produced on YouTube. We will look at famous films and media for examples and ideas.

3rd Period - 10:45-11:55

Grade K: Who is Ready for 1st Grade Math?  
Cunningham
Students will play games and have fun practicing the math skills taught in kindergarten to help prepare them for success in first grade. Counting, counting on, number sense and recognition, use of tens frames, addition & subtraction skills and more will be used to solidify math skills.
**Grades K-2: Young Scientists**
Tabassum
Enroll your kiddos to be young scientists and let them have the chance to do interesting experiments and have some fun at the same time! We will work with the scientific method as well – observations, questioning, hypotheses and experiments!

**Grades 1-2: Second Helping Math**
Wilson
Students will continue to develop and improve their basic math skills through the use of manipulatives, games, and activities.

**Grades 1-2: All A’board**
Cashman
Students can choose from a variety of board games to work on critical thinking and strategy skills. Bring your favorite game to share with the class. Come relax and give your brains a boost this summer!

**Grades 3-6: Fantastic Beasts**
Greissinger
Follow the adventures of Newt Scamander in Fantastic Beasts and Where to Find Them. We will study many of the animals Newt loves and cares for, create our own beasts, learn about the American magical school, compare and contrast the wizard worlds of the USA and the United Kingdom AND continue to enjoy all the magical themes from the Harry Potter book series.

**Grades 4-8: Everything Clay**
Crane
Students will create ceramic art pieces that can be used in a variety of different ways! Examples: piggy banks, phone holder, jewelry box, appetizer dishes, candle holders, etc.
This class will have an additional fee of $10 to help cover material costs and supplies. Please include it in the payment.

**Grades 4-8: Minecraft**
Reisman
Come join us for some Minecraft fun! We will have different opportunities for you to build and craft. We will be working together on building parts of our school – using ideas that you have! In addition to building, there will be some competitive challenges that you will never see coming!
11:55-3:00

K-4 Activity Camp
Participating students will take part in a variety of fun athletic activities that will build not only your child’s athletic skills, but also his/her sportsmanship skills as well. Children in activity camp that are enrolled in morning classes should bring a sack lunch. **THIS CLASS HAS A COST OF $220.**

5-8 Activity Camp
Participating students will take part in a variety of fun athletic activities that will build not only your child’s athletic skills, but also his/her sportsmanship skills as well. Children in activity camp that are enrolled in morning classes should bring a sack lunch. **THIS CLASS HAS A COST OF $220.**
Student Registration Summer Academy 2019

Enrollment is based on the date registration is received. All classes have a minimum number of students required and may be canceled if minimum enrollment is not met. Making a Second Choice is important. Students may sign up for 1, 2 or 3 concurrent courses. Please print as clearly as possible.
